

TURN YOUR FUTURE CROP PRODUCTION INTO A LINE OF CREDIT.

Sow your crops and grow your future.

If it's not the market, it's the weather. If it's not your timing, it's your cash flow. Broadacre cropping has many challenges, but at Agfarm we think your finance shouldn't be one of them. Agfarm Accelerate provides a smart and affordable solution that makes farm finance work for you.

What is Agfarm Accelerate?

Agfarm Accelerate is a line of credit for all your cropping input needs such as seed, agchem, fert, fuel and water. It's secured against your future crop and repaid with grain, oilseed or pulse sales.

How do I repay my loan?

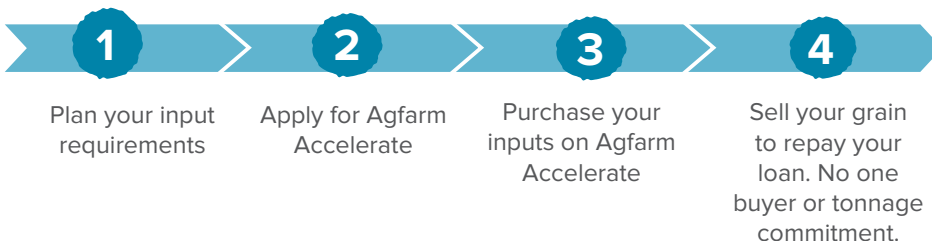

You choose the method and timing; forward sell, cash sell or delivered. Sell through your preferred buyers or use an Agfarm marketing program.

How do I keep track of my account?

Agfarm provides monthly statements with details of your purchases, available credit and interest accrued.

How do I apply?
